T&P CRM Tool Business Requirements Document (BRD)

Version 1.1

Authored by Karen Ooi

Authored on 26 Oct 2026, **Updated on** 6 Nov 2026 (v1.1)

1.0 Business requirements:

Objective: Manage contacts and sales opportunities until it is converted to an Active Project.

2.0 High Level System Requirements:

- The CRM has 5 modules
    - Resources (Humans - Payments associates, Consultants, Partners; AI Agents) (unique PII is email)
    - Client (e.g., Customer Account = HSBC)
    - Project Opportunity (e.g., HSBC OTA Advisory Project)
    - Reporting
    - Dashboard
- **Resources:**
    - **Employees** : past and present employees including partners, finance, legal, and consultants who have an Active Partnership Agreement signed.
    - **Consultants** : those who have completed the Consultant Interest Form, but have not signed the Partnership Agreement.
    - **Partners**:
    - **Client Contacts** including prospects (including leads we are actively pursuing as well as MAG SG leads), existing clients with ongoing projects, and past clients whom we have completed projects with.
- Under the Contact module, there are 3 types of persons. **Email ID is a unique PII.**
    - Employee contact (e.g. Vishal /partner)
    - Consultant contact (e.g. Karen /consultant)
    - Client contact (e.g. Lisa/client)

- The Contact module has **CSV import function** to ease data entry whenever we complete an event e.g. MAG SG leads.
- **Lead qualification**

    - **Leads that are not qualified remain as prospects.**
    - **For leads that are qualified,** the salesperson needs to:
        - Create a new customer account
        - Create a new Opportunity, and update until it is Opportunity Stage is either Design Win/Lost.
- **Opportunity Stage**
    - **Initiating** :early discussion with the client
    - **Scoping** : discussion on scope, pricing and timeline
    - **Proposal** : contracting phase
    - **Design Win** : contract signed, now an Active Project, ready for project initiation
    - **Design Lost** (if no progress after 6 months)
- Sales opportunities have an **approval workflow**. Each opportunity needs to be approved by Delivery, then Finance, then Legal and finally Partner.
- Every CRM entry is captured by the **Audit Trail** (who and when).
- **Reporting Dashboard** is to track active leads
    - Sales opportunity for Sales Stage: Initiating, Scoping, Proposal (stage, who, amount in USD equivalent)
    - Design Win and Design Lost
    - For reporting purposes, FX rules are based on oanda.com on 1st of the month.

3.0 CRM Module Requirements

Module 1: Contact (think of person)

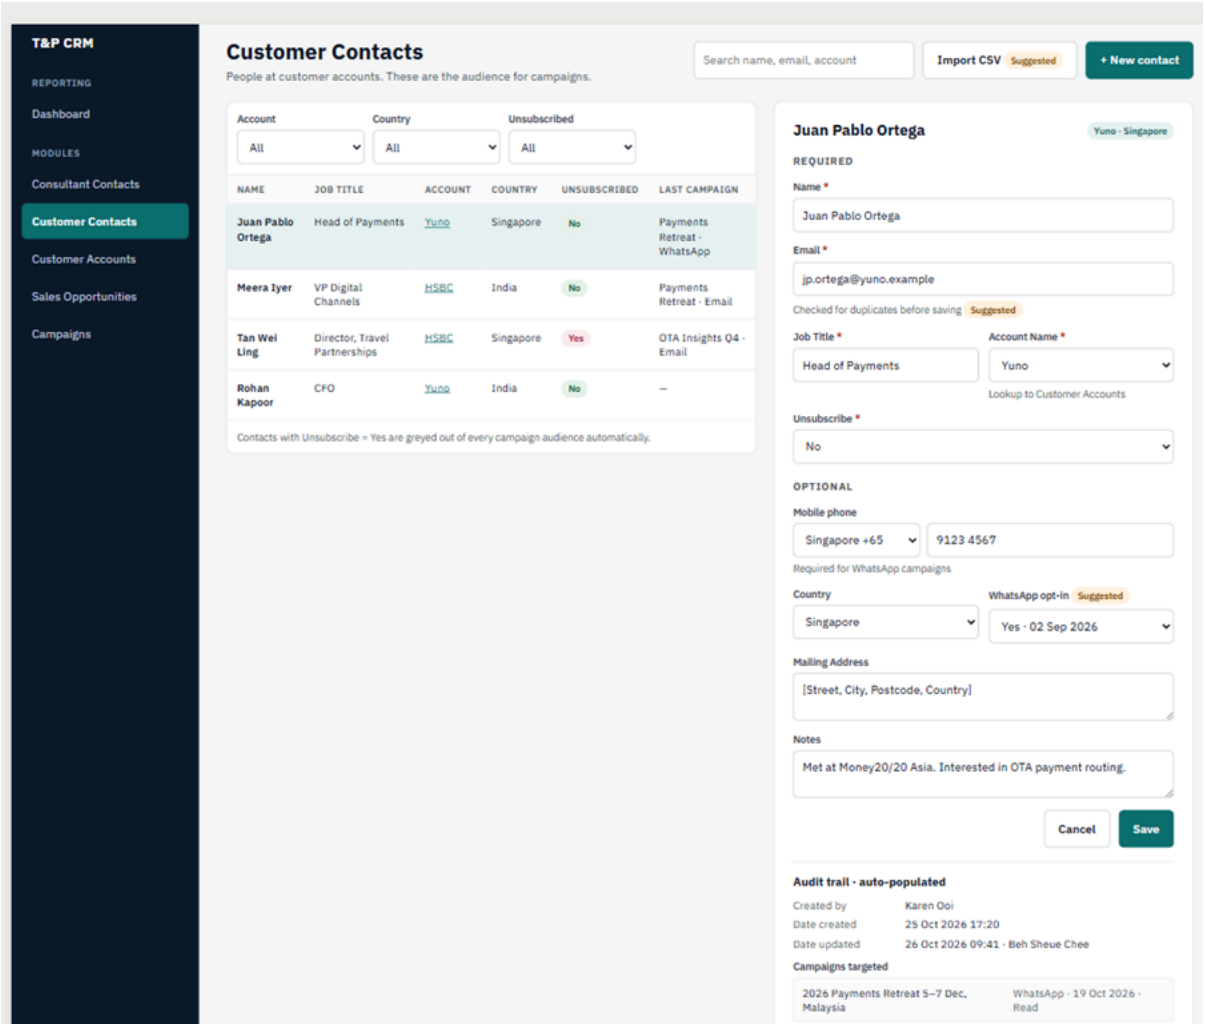

Employee and Consultant Contact

1. Mandatory fields (marked with *):
    a. Name
    b. Primary Email (e.g., T&P email)
    c. Secondary Email (e.g., personal Gmail)
    d. Mailing Address
    e. Joined Since DD MMM YYYY
    f. Job Function (dropdown list: Partner, Sales, Delivery, Finance, Legal) for Sales Opportunity workflow purposes
    g. Status (dropdown list: Active, Inactive) to ensure leavers won't be selected as closers or approvers.
2. Optional fields: Notes
3. Audit trail: Approved or Rejected Sales Opportunity on DD MMM YYYY

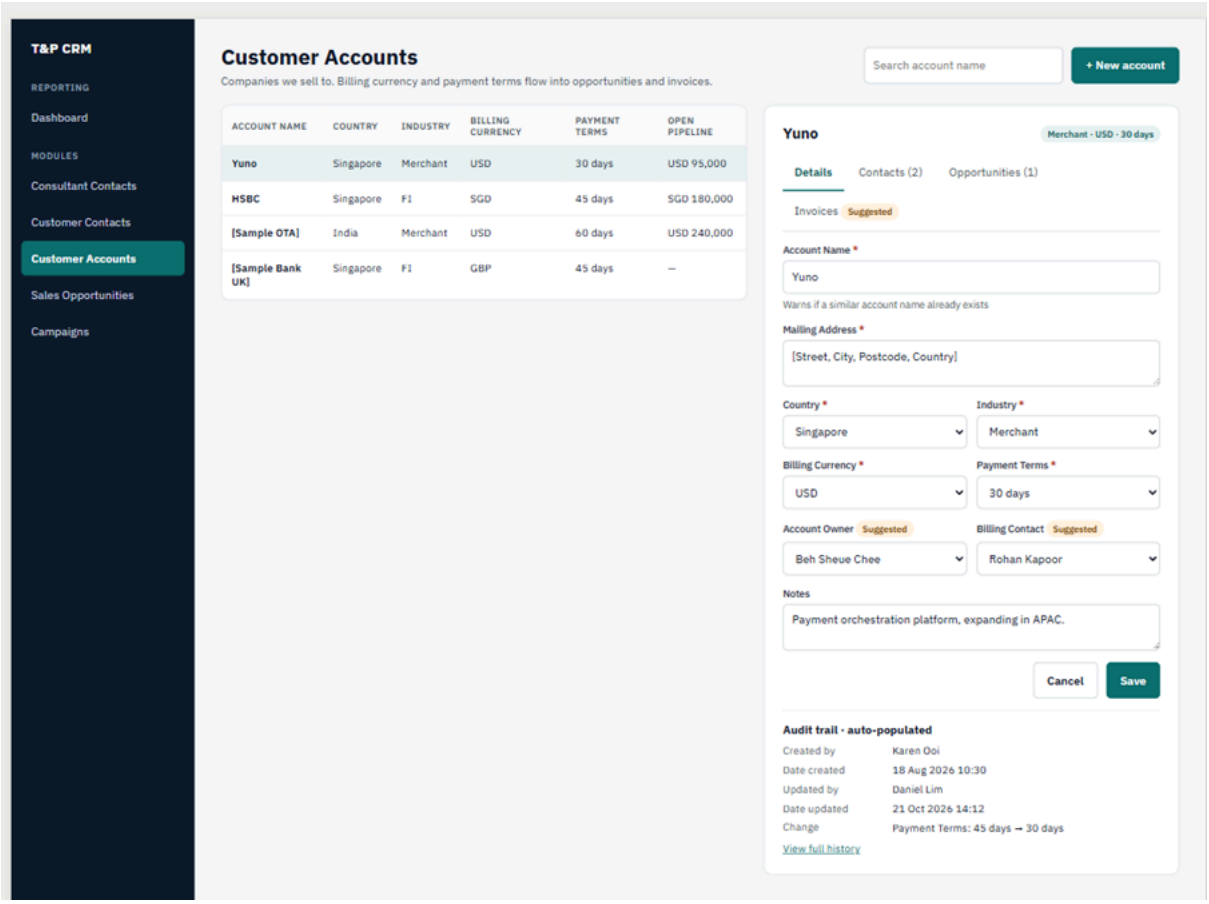

Customer Contact:

1. Mandatory fields:
    a. Name
    b. Email
    c. Job Title
    d. Account Name (lookup)
